**FAIRMONT SUITES, FAIRMONT HOTEL
THE HISTORIC GRAND PRIX, MONACO**

Fairmont VIP Suite Race Viewing - Our Fairmont VIP Suites offer guests the best views over the famous Fairmont Hairpin. Watch as the cars race down the hill from Mirabeau Corner and break hard to tackle the hairpin before accelerating away towards Portier Corner. This section of the track is highly technical, and notoriously difficult in the wet so there are often exciting incidents on view from this location. The atmosphere in the Fairmont Hotel is electric as the hotel is located in the centre of the track and the cars race past the entrance of the hotel. When the Historic F1 cars speed through the tunnel underneath the hotel it practically shakes! Each suite has been handpicked by Senate GP to ensure our guests get the absolute best views and includes a sheltered private balcony for viewing, limited to just 14 guests for your comfort. Senate GP can also offer private track view rooms for individuals and guests overlooking the Fairmont Hairpin. A specially prepared 'Grand Prix' buffet luncheon is served in the suite including a selection of Champagne, fine wines, spirits, beers and soft drinks.

4* Fairmont Hotel — The Fairmont Monte Carlo is a luxury 4* hotel located in the heart of Monaco, track-side between the sparkling Mediterranean Sea and the famous Casino of Monte Carlo. The hotel puts the principality at your doorstep. The Fairmont is known as the 'party hotel' for the GP period, with in house parties such as the famous Nikki Beach by the rooftop pool. A Casino, exclusive bars and two great restaurants including a Nobu are all located in the hotel. When staying at the Fairmont all guests have access to the rooftop swimming pool where you can also see the racing. After the racing has finished the pool side party starts.
